

MICROBIAL TESTING REPORT

MICROBIAL TESTING REPORT

Laboratory Information	
Testing Laboratory:	[REDACTED - Certified Microbiology Lab]
Accreditation:	ISO/IEC 17025:2017
Report Number:	MB-933652
Test Date:	2024-10-21
Report Date:	2024-10-25

Sample Information	
Product:	Ashwagandha KSM-66® 600mg
Batch Number:	[REDACTED]
Sample ID:	S-89646
Matrix:	Dietary Supplement Capsules

Test Parameter	Method	Specification	Result	Status
Total Aerobic Plate Count	USP <2021>	≤ 10,000 cfu/g	< 100 cfu/g	PASS
Yeast & Mold Count	USP <2021>	≤ 1,000 cfu/g	< 10 cfu/g	PASS
Escherichia coli	USP <2022>	Negative/10g	Negative	PASS
Salmonella species	USP <2022>	Negative/25g	Negative	PASS
Staphylococcus aureus	USP <2022>	Negative/10g	Negative	PASS
Pseudomonas aeruginosa	USP <2022>	Negative/10g	Negative	PASS

Methods: USP <2021> Microbial Enumeration Tests, USP <2022> Tests for Specified Microorganisms

Incubation: Aerobic bacteria: 30-35°C for 48-72 hours; Yeast & Mold: 20-25°C for 5-7 days

Conclusion: All microbial parameters meet specifications. Product PASSES microbial testing and is safe for consumption.
